SUMMARY

Dedicated and detail-oriented Software Developer skilled in PHP, MySQL, Laravel, and Flutter, with experience leading high-impact development projects. Improved application efficiency and data handling accuracy by up to 95% through clean code practices and optimised backend logic.

WORK EXPERIENCE

Afcourse Learning Academy | *Application Developer* | *Data Analyst*

Sep 2023 – Jan 2025

- Developed a strong foundation in SQL and Python programming, applying core concepts to data analysis and reporting tasks using Python, SQL, and Power BI.
- Analyzed datasets to extract meaningful insights, improving understanding of data handling, visualization, and analytical workflows.
- Conducted hands-on technical training sessions in Android Studio, React, Node.js, Flutter, and JavaScript, covering end-to-end application development concepts.
- Guided learners through real-world projects and practical exercises, enhancing skills in coding, debugging, and UI development
- Mentored students in designing responsive and visually appealing application interfaces, following modern UI/UX and development best practices.
- Strengthened expertise in **full-stack and mobile app development technologies** through instructional delivery and continuous practical implementation.

Turain Software | *Junior Software Developer*

Jun 2025 – Sep 2025

- Worked on backend development using Core PHP and Laravel, building, optimizing, and maintaining dynamic web applications.
- Designed and integrated **RESTful APIs** to support seamless communication between frontend and backend systems.
- Implemented authentication and authorization systems, ensuring secure user access and data protection.
- Managed MySQL databases using phpMyAdmin, including schema design, writing optimized SQL queries, and maintaining data integrity.
- Collaborated with team members to **debug issues**, improve **application performance**, and resolve production-level bugs.
- Assisted in **deploying application updates** and maintaining server-side logic to ensure smooth functionality and scalability.

SKILLS

- **Programming & Query Languages:** PHP, SQL, Python, Java
- **Frameworks & Technologies:** Laravel, Node.js, Flutter, HTML
- **Databases & Tools:** MySQL, phpMyAdmin, Advanced Excel
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms
- **Languages:** English, Hindi, Bengali

PERSONAL PROJECTS

Stock Market Sentiment Analysis (College) | [Link](#)

- * Designed and developed a machine learning project using LSTM (Long Short-Term Memory) for time-series prediction, sequence modeling, and pattern recognition.
- * Applied AI/ML techniques to build an innovative and practical solution addressing a real-world problem.
- * Performed data preprocessing, feature engineering, and sequence analysis to improve model accuracy and reliability.
- * Implemented, trained, and evaluated the LSTM model using Python, ensuring efficient experimentation and performance tuning.
- * Utilized TensorFlow / Keras, NumPy, Pandas, and Visual Studio for model development, training, and result visualization.
- * Successfully delivered the project within a short timeline, demonstrating strong problem-solving, collaboration, and execution skills.

Twitter Sentiment Analysis (College) | [Link](#)

- * Designed and developed a Python-based sentiment analysis system to analyze public opinions from Twitter comments.
- * Implemented natural language processing (NLP) techniques to classify tweets into positive, negative, and neutral

sentiments.

- * Performed data cleaning, text preprocessing (tokenization, stopword removal, and normalization) to improve sentiment accuracy.
- * Applied sentiment polarity scoring using TextBlob to extract emotional insights from real-world social media data.
- * Visualized sentiment trends and distributions using Matplotlib to support data-driven interpretation.
- * Built an interactive Streamlit web application to allow users to analyze Twitter comments in real time.
- * Utilized Python, Pandas, NumPy, TextBlob, Matplotlib, and Streamlit for end-to-end project development and deployment.
- * Successfully completed the project within a limited timeframe, demonstrating strong analytical thinking, problem-solving, and practical ML/NLP skills.

EDUCATIONS

Guru Nanak Institute of Technology | Kolkata
B.Tech | Information Technology
DGPA – 8.21

Jun 2019 – Aug 2023

Anandanagar A.C.Roy High School | Singur
Higher Secondary | 12th | Science
Percentage – 68%

Mar 2017 – Mar 2018

Anandanagar A.C.Roy High School | Singur
Secondary | 10th
Percentage – 69%

Jan 2015 – Mar 2016

HOOBIES

- Freelance Photographer
- I play sports like Badminton, Cricket, and Carrom
- I love to stay fit, that's why I work out almost daily.
